

# CLEAN ENERGY IN WISCONSIN

## WISCONSIN PRIORITIZES CLEAN ENERGY PROJECTS

**WE BELIEVE IN SUSTAINABILITY SO MUCH, WE STARTED A HOLIDAY FOR IT: EARTH DAY.**

Now observed by billions of people, Earth Day started in Wisconsin in 1970 and we remain committed to clean energy today.

### **Wisconsin Green Innovation Fund**

This initiative will help fund the deployment of renewable energy projects across the state. WEDC adds value by aligning business objectives with sustainability goals.

**Hydrogen Hubs** We are members of 2 multi-state hubs designated and funded by the U.S. Department of Energy to grow commercial development and application of hydrogen energy solutions.

**State Office of Sustainability & Clean Energy** We have programs and policies that support your company's use of clean energy resources and technology, to help address climate change.

**Wisconsin DNR's Green Tier Program** If your organization is exploring a path to sustainability, we have a systematic approach to minimize environmental risk. We add value by helping align business objectives with environmental stewardship.

**Focus on Energy Program** We provide information, resources, and financial incentives to help your company implement energy efficiency and renewable projects.

**Research Tax Credits** Your company can be reimbursed for research activities related to certain energy-efficient products.

**Energy Innovation Grant Program (EIGP)** Your company can access funding for a wide variety of projects that reduce energy consumption and support renewable energy vehicles and infrastructure.

**Property Assessed Clean Energy (PACE)** We'll help your company obtain low-cost, long-term loans for energy efficiency, renewable energy, and water conservation improvements on your property.
