

BROWNFIELDS GRANT PROGRAM

ENVIRONMENTAL IMPROVEMENT ASSISTANCE FOR REDEVELOPMENT

Wisconsin's **Brownfields Grant Program** provides funds to assist with the remediation of environmental contamination of abandoned, idle, or underused industrial or commercial facilities or sites. This program helps convert contaminated sites into productive properties that are attractive and ready for redevelopment.

How it works

Any city, village, town, county, individual, Tribal entity, or business may apply for funds. The maximum grant amount is generally \$250,000.

Eligibility requirements

Brownfields Grant funds may be used for brownfields redevelopment or associated environmental remediation activities on sites with demonstrated soil, groundwater, or vapor contamination. Applicants must demonstrate that:

- Phase I and Phase II Environmental Reports have been completed no more than five years prior to the application submission date.
- The party that caused the environmental contamination and any person who possessed or controlled the environmental contaminant is unknown, cannot be located, or is financially unable to pay for the remediation.

Eligible activities

Brownfields Grant funds may typically be used for the following activities:

- The environmental investigation, remediation, and/or monitoring of the site
- The removal of hazardous waste containers
- Soil removal, capping, barrier installation, and vapor intrusion systems
- Demolition activities that will facilitate redevelopment of a brownfields project

The applicant must have obtained Wisconsin Department of Natural Resources (DNR) assistance in, or comments on, the planning and implementation of an environmental investigation or the environmental cleanup of a property through DNR technical assistance services.

LEARN MORE

For more information about becoming eligible for the Brownfields Grant Program, contact a Wisconsin Economic Development Corporation (WEDC) regional economic development director.

You can find the list of regional directors and territories covered at wedc.org/regional.
